

# Maryland CFSSR Performance to Date - Ratings for Safety, Permanency, and Well-Being Items

The period 4/1/18-9/30/2018 represents the federal CFSSR period and the preliminary baseline for Maryland program improvement pending confirmation of the final results by the Children's Bureau.

As part of Maryland's CQI process, each local department, in partnership with SSA, undergoes a Maryland Child and Family Services Review (CFSSR). Each local department will be reviewed on a schedule at least once every three years. This review, which aligns with the federal review process, focuses on child and family safety, permanency and well-being outcomes. The review is designed to combine evidence from various sources to highlight the strengths and areas of challenge in the local system of care which are impacting child and family outcomes. During the onsite review, a review team uses a review instrument to assess the quality of practice and the functioning of processes that support the achievement of child and family outcomes related to safety, permanency and well-being. Reviewers combine information from interviews with key case participants and the record in CHESSE to complete the review using the instrument. The results, which are recorded in the Online Management System (OMS) show how the state is performing related to all reviews completed to date, as well as reviews completed in five jurisdictions every six months.

\*PIP Targets in red represent the Program Improvement Plan (PIP) Targets. SSA is required to reach these targets to successfully complete its program improvement plan. This is different than the Children's Bureau's benchmark expectation during the federal CFSSR for 90% (or 95% for items 1 and 16) of cases to be rated as a strength.

\*\*The Children's Bureau determined on 3/17/2020 that Maryland has met the PIP target for items 2 and 13. On 10/15/2020 items 3, 4, 12, 14, and 15 met the PIP targets as determined by the Children's Bureau.
